OBJECTIVE

Aspiring Software Engineer with a strong foundation in Java, SQL, JavaScript, ReactJS, and web application development. Familiar with object-oriented programming, database concepts, REST APIs, and developing responsive web applications. Demonstrated ability to build and integrate functional applications with a focus on clean code, logical problem-solving, and efficient implementation. Eager to apply technical knowledge in a professional environment, learn modern software development practices, and contribute to building reliable and scalable software solutions.

EDUCATION

2021 – 2025 **Saranathan College of Engineering, Trichy, Tamil Nadu**
B.E. Computer Science and Engineering
CGPA : **7.82**

2021 **Vignesh Sri Renga Matriculation Higher Secondary School, Trichy, Tamil Nadu**
HSC - Class 12th
Percentage : **85.31**

SKILLS

Frontend Development
HTML , CSS , JavaScript , React.js

Backend Development
Java,Python

Databases
MySQL

Tools
VS Code , Git

Concepts
C , C++ , OOPS

MS Office Tools
Word , Excel , Powerpoint

PROJECTS

E-commerce Website [UrbanWear]
Developed a full-stack clothing e-commerce website using React.js, Flask, and MySQL, featuring product browsing, category-based filtering, search, size selection, user authentication, and cart management. Integrated REST APIs and database operations for order processing, cancellation, and stock management. Developed an admin dashboard for product and order management, focusing on responsive design and smooth frontend-backend integration.

Traffic Sign Classifier
Built and trained a CNN-based model using the German Traffic Signs dataset to classify signs with high accuracy. Applied TensorFlow/Keras for deep learning, used OpenCV for image preprocessing, and optimized hyperparameters for improved performance.

Driver Fatigue Detection and Alert System
Designed a real-time monitoring system to detect driver fatigue and distraction using YOLOv11 for facial and eye tracking. Achieved ~90% accuracy with optimized model performance and integrated automated alert mechanisms for driver safety.
